# MADE EXPO

## A UNIQUE PLATFORM FOR THE BUILDING INDUSTRY

### Key reasons to exhibit at MADE expo

**MADE expo** is the leading Italian trade show – and one of Europe's top events – for building, construction and architecture.

The event gives Italian and international visitors the chance to stay abreast of developments in design, technology, quality and customised manufacturing systems.

MADE expo is the place to meet the top Italian and global players in the construction industry – in which Italy ranks fourth – and to connect with international visitors, who account for 9% of the total.

MADE expo's format – featuring 4 specialised yet seamlessly integrated exhibitions under the same roof – is greatly appreciated by exhibitors, including those from countries other than Italy (22% of the total), and the layout allows exhibitors to effortlessly meet with their target audience.

Straightforward packages for participating exhibitors, extended on-line visibility before, during and after the event, and the support of an enthusiastic multilingual team make signing up for the event a breeze, saving foreign exhibitors from complications and letting them focus on what matters most: getting down to business!

# NEW SOLUTIONS, STRONGER RELATIONS

## A GREAT PLACE TO MEET AND DO BUSINESS

The ideal place for meeting Italian and international designers, showcasing ground breaking new concepts for the benefit of construction and redevelopment firms, craftsmen, builders and contractors, and forging relationships with distributors and retailers: MADE expo is all this and more.

## THE 4 EXHIBITIONS

The only event that brings together the entire building and construction industry in one location. Offering the opportunity to access specialised sectors and watch them interacting.

## An interactive experience

The **Live Demo Areas** provide a showcase for all the latest developments in an interactive and immersive setting, offering visitors hands-on access to products and solutions. And dynamic experiences in **Installation Spaces** where know-how meets technical innovation.

The event is backed by investments in radio advertising, digital media, newspapers, periodicals and the trade press, and by long-standing relationships with the leading Italian and global media, making MADE expo a truly unmissable opportunity.

## An integrated visibility system

Participating in MADE expo delivers the benefits of a modular and comprehensive visibility system based on a wide range of resources including a website, newsletters with original content, real-time social media posts and a product catalogue produced in partnership with Edilportale - Archiportale.

## RATES

Exhibit space with two or more open sides	€ 165	€ 169	€ 179	€ 189	€ 192
Registration Fee	€ 600				

All amounts are before tax

# ONE EXHIBITION, MANY CONNECTIONS

## EVENTS AND INITIATIVES TO ENGAGE VISITORS

Meetings, conferences, talk shows, workshops and live demos are part and parcel of MADE expo. They form the cultural drawcard for target audiences, generating an enhanced visitor experience and bridging the gap between manufacturers and the leading names in architecture and the construction industry.

The most exciting events scheduled for 2019 include **B-Smart! Sustainability** and **Innovation**, featuring a packed programme of conferences, workshops and labs, **Archmarathon Selections**, a competition with an international jury with entries by designers from all over the world, the **Contest** to unveil the most impressive innovations and exhibits at the show, an installation created by **Elle Décor** to highlight the latest and best interior finishes, the **Forum** focussing on the **building envelope** and **windows**.

## MARKET OUTLOOK

MADE expo, your unique opportunity to seize the economic recovery! The Country's economic upturn coupled with the Government's further extended stimulus package are strongly contributing to the economic recovery of the building sector with a 1.5% growth rate expected in 2018 (ANCE data). The main drivers for the new upward trend are the growth of the real estate sector in the metropolitan areas of the North, the incentives for energy efficiency and urban regeneration programmes as well as for new earthquake-proof residential & commercial construction systems and the start of new businesses. Over half of the demand is concentrated in the North of the Country which is MADE expo's main catchment area; the Lombardy Region which hosts the Event, has a per-capita GDP equal to that of the most highly developed German Regions (Eurostat data).

**MADE expo is situated in the very heart of Milan's urban regeneration programme**

The radical transformation of Milan and its services has turned the city into an unsurpassed example of concreteness, where fresh new ideas are not simply dreamed up but actually executed.

The Milan Rho exhibition centre can be easily reached by subway and train from downtown Milan, by high-speed train from Italy's major cities, and by air via the nearby Malpensa, Linate and Orio al Serio airports from Europe and the world.

# MADE EXPO EXHIBITIONS

## MADE CONSTRUCTION MATERIALS
